

# Transportation Ministry

Seaside UMC has a very necessary and vital ministry associated with the Health and Wellness program that involves transportation. We have a number of amazing folks who have volunteered to transport members of our church family to various doctor appointments, grocery shopping, church services, etc.,

that they might otherwise be unable to attend due to situations that prevent them from being able to drive themselves. The Director of Formation & Program oversees the organization and follow-up associated with this ministry. We do, however, have a Coordinator who handles pairing up the drivers with the person needing transportation. The names, phone numbers, addresses, times, etc., are all provided to the drivers, and they will then contact the person and verify the information and make final arrangements.

If anyone is in need of transportation, or would be interested in becoming a driver, please contact Stefanie Riley at the church office (579-5753).
